

Vacuum Breaker

For vacuum break in Head control,
Dripperline and Distributing pipe

- Large orifice – allows fast introduction of air into the irrigation system
- Simple structure – 4 parts, easy assembly – reliable operation
- Superior raw materials – resistance to chemicals and fertilizers
- Protects pipe system from excessive vacuum and collapse
- Avoids suction of mud back into drippers

SPECIFICATION

Material:	Reinforced Nylon, P.P. and EPDM	Color:	Dark grey
Connection:	1/2" male thread	Leakproof pressure:	0.6 bar
Max. working pressure:	4.0 bar	Air suction capacity (max.):	1.7 liter/second
